

**Abrasion Resistant**  
**Anti-Vibration**  
**Cut-Resistant**  
**Slip Resistant**

**The Extrication Glove**  
*Made with Rescue Personnel in mind*

## When the going gets Tough...

The fabric used in this glove is tougher than leather, genuine Clarino synthetic leather palm and finger material. Yellow Cordura 4 way stretch dynamic fabric is used on the back of the glove. You get reinforcement in all the fingertips and also in the palm for padded anti-vibration. The fingertips have 3M Greptile anti-slip material inside. Stainless steel reinforced heavy knuckle protection with shock absorbent material. Elastic cuffs limits glass and other foreign objects from entering. It will even maintain your grip when wet. It is also puncture and cut resistant. Available in sizes S - XXL.
