

Dry or wet, take your hand protection to the Max!

Tempo
GLOVES
UNION MADE IN U.S.A.

Welt at base of finger provides added durability and protection in the gripping area.

Aqua Temp™ leather is developed to deal with the special needs of a firefighting glove – permanent liquid repellence and excellent gripping power even when wet.

Tempo Max

Wing thumb with welted stress area.

Tempo
Mini Max

Length extension beyond vulnerable wrist.

Elastic cinch ensures proper fit and prevents gloves from accidentally falling off.

100% Pre Shrunk
Wool knitted liner

Our Nomex III® RIB-KNITTED wristlet construction gives the Max an exclusive 4-inch memory wristlet that will not shrink or distort as others do.

Tempo Glove Manufacturing has redefined the meaning of quality in the workmanship and material components of its firefighting gloves. With pride, we boldly display our logo on every glove we make.

Both Tempo **Max** and **Option** gloves are made from exclusive Tempo Aqua Temp™ leather with qualities in our leather unknown to firefighting gloves in the past. Durable yet soft to the hand, the leather can be washed, and after drying, softened with scrub brush, maintaining its flexibility and excellent gripping power – even when wet.

The wristlet in our Tempo gloves is rib-knitted Nomex III® for flame resistance and durability. It will not shrink or distort as other wristlets do. Turn the wristlet up for fast entry; once the glove is on your hand, pull the wristlet down to ensure maximum protection.

Tempo gloves are manufactured and marketed by Tempo through its distributors throughout the United States and the world. Both the **Tempo Max** and **Mini Max** gloves are available in six sizes – Extra Small, Small, Medium, Large, Extra Large and Jumbo. Mittens are available in Small, Medium, Large, Extra Large and Jumbo.

Tempo® firefighting gloves, in fire and ice, dry or wet, they're the toughest gloves for the toughest profession.

 **Tempo® Max**
